UX Notes & Open Issues

E-Books vs ebooks

NYPL uses “E-Book” to describe this type of content in our catalog records and when we describe SimplyE. III CTAs and messaging uses “eBook”. We should make these as consistent as possible with “E-Book”, “e-book”, “e-books” etc.

Positioning of buttons

Putting the buttons below the title/details can force them to be quite distant from each other. Can we wrap the title/details so that the action and messaging always appear next to it?
